Comment for the California Cannabis Advisory Meeting 12/07/2023

I am a parent, California citizen and youth advocate living in Marin County, California. I would like to express my disappointment in the lack of regulation enforcement regarding cannabis. Cannabis Control and the CDPH are ignoring:

- cannabis product labeling blatantly attractive to children and youth
- sales of intoxicating synthetic hemp products that are illegal in the state of California, both smokable and edible delta 8 & 10 THC, THC-A, HHC, etc. in our local gas stations, bodegas, and unlicensed cannabis shops

I believe the lack of attention to public health regarding these issues is egregious. Our children are being seriously harmed by this lack of regulation enforcement. What will it take for the state to actually enforce the laws around cannabis and hemp? A class action lawsuit against the state? Maybe so.

Attached are photos of hemp products sold at local stores, and a sandwich board for a local unlicensed cannabis/hemp store. I've also included a chart of cartoon characters from vape and cannabis products compiled by the Alameda police.

Please take enforcement of cannabis labeling and advertising restrictions, and the sale of synthetic hemp products more seriously, fund the departments that control enforcement, and do the work it takes to protect the public!

Sincerely,
Elizabeth O'Donnell
