This letter is to inform you that, effective October 15, 2024, the Department of Cannabis Control (Department) is revoking provisional license number C11-0000695-LIC issued to K.U.S.H. (KINDER UNDERSTANDING SENSITIVE HEALING) COLLECTIVE, for the above-referenced premises. The Department has evidence that K.U.S.H. (KINDER UNDERSTANDING SENSITIVE HEALING) COLLECTIVE has failed to comply with the requirements applicable to its commercial cannabis license and has engaged in activity that poses harm to public health, safety, or welfare.

Specifically, the Department has discovered evidence of the following violations:

It is unlawful to cultivate, process, manufacture, sell, deliver, hold, or offer for sale cannabis or a

cannabis product that is misbranded. It is unlawful to receive in commerce cannabis or a cannabis product that is misbranded or to distribute, deliver, or offer for delivery any such cannabis or cannabis product.

None of the items were labeled with required UID numbers or located in the Track-and-Trace system and are untraceable to a licensed source.

On July 17, 2024, the Department issued a mandatory recall order for vape cartridges manufactured and distributed by K.U.S.H. due to contamination with the pesticide Chlorfenapyr at levels exceeding the action level for the residual pesticide established by the Department in regulation. Prior Notice of Provisional License Review Issued

A Notice of Provisional License Review was provided to you and K.U.S.H. (KINDER UNDERSTANDING SENSITIVE HEALING) COLLECTIVE on October 2, 2024. The Notice of Provisional License Review provided an opportunity to request an informal meeting and submit documentation related to the violations for consideration. K.U.S.H. (KINDER UNDERSTANDING SENSITIVE HEALING) COLLECTIVE did not submit documentation for consideration or request an informal meeting. However, during the provisional license review period, David Shin (Shin), owner of K.U.S.H. (KINDER UNDERSTANDING SENSITIVE HEALING) COLLECTIVE, provided some additional information and made the following admissions and statements to Department staff:

- Shin was unable to produce Batch Production Records for his manufactured cannabis products, and explained that the Batch Production Records were contained within a filing cabinet that had been stolen from the licensed premises;
- Shin admitted that the license was not compliant with record-keeping requirements and that he was not aware of what information was necessary to be included in a Batch Production Record;

- Shin stated he wanted to bring in new partners to his business venture and sell his cannabis license to these new partners;
- Shin stated that he accepted responsibility for any wrongdoings, as it relates to the proposed revocation of his provisional licenses;
- Shin stated that he hired people from other manufacturing businesses and brought them in to “work under the table,” because he did not manufacture cannabis products often and could not sustain a full-time staff;
- Shin admitted allowing another commercial cannabis business to utilize his licenses to manufacture products;
- Shin stated that he had only manufactured keif and vape cartridges for the past year, but stated he did not sell the keif and could not provide any information as to what he did with the keif;
- Shin stated there were agreements with multiple companies, including Eaze and Supherb, to package cannabis products;
- Shin admitted to sending cannabis products to a non-licensed laboratory for regulatory compliance testing;
- Shin stated he was in physical possession of approximately 5,000 units of cannabis vape cartridges from an Eaze recall, and explained that these vape cartridges were delivered to him immediately prior to the licenses being placed under suspension; and
- Shin stated he had not recorded in or updated his METRC account to reflect recalled cannabis product that he had destroyed.

K.U.S.H. (KINDER UNDERSTANDING SENSITIVE HEALING) COLLECTIVE has failed to comply with the requirements applicable to its commercial cannabis license and has engaged in activity that poses harm to public health, safety, or welfare. Therefore, the Department has determined that revocation of the license is appropriate.

Additionally, cannabis or cannabis products may not be received at, or transferred from the premises referenced above. California Code of Regulations, title 4, section 15024.1 provides the requirements for disposing cannabis and cannabis products that remain on the premises following the termination of a license.
